

Safeguard Home Flood Insurance

The Petition of the residents of Beverley and Holderness

The petitioners believe that flood insurance must remain available and affordable to householders. They therefore call upon Her Majesty’s Government to make every effort to reach an agreement with insurers before the expiration of the current ‘Statement of Principles’ in June 2013.

The petitioners therefore request that the Prime Minister urges the Government to negotiate with the Association of British Insurers to reach an agreement to succeed the ‘statement of principles’.

And the Petitioners remain, etc.
